

Q2, LLC Offers Compatible Replacement Drums For Copiers and Multifunction Office Imaging Machines

eOffice

Office World News

Burnsville, MN—March 5, 2009—Q2, LLC, an aftermarket company specializing in the development, sales, marketing and distribution of OEM and compatible replacement parts and staples for copier, printer and multifunction machines, is pleased to announce the introduction of its new line of photoreceptor drums for multiple OEM machine models.

Q2 has been working with office imaging equipment service organizations to optimize their profitability, improve their competitiveness and lower their purchasing risks by offering more new, quality products with very competitive pricing. Q2's new drum line provides dealers an opportunity to lower their costs and improve their margins in a difficult economic environment. "Everyone knows just how tough things are today," said Neal Becker, Q2 executive vice president. "We are committed to helping dealers by giving them more options to save money, remain competitive, and survive today's challenges."

Q2's new line of drums are for use in Canon, Konica Minolta, Kyocera Mita, Panasonic, Ricoh, Sharp and Toshiba office imaging machines.
